Dear Families,

I am happy to welcome you to the San Andreas Regional Center Early Start Program, which serves counties of Monterey, San Benito, Santa Clara, and Santa Cruz.

Zero to three are crucial years in a child's life. At San Andreas Regional Center, we believe that every child deserves the opportunity to learn and grow and reach their full potential. We understand that children can achieve remarkable progress when they receive the necessary support at an early age. San Andreas Regional Center Managers and Service Coordinators work closely with local community partners to identify and serve children and families who require our support. Our primary goal is to help your child achieve developmental progress through early intervention services and parent education.

Our service coordinators and community partners play a supportive role in your child's progress and are here to work alongside you and your child. We recognize that raising a child with developmental needs can be challenging, and we are committed to providing support, resources, and guidance every step of the way. I am always inspired to see our staff's dedication towards the families and children we serve. Many of our staff have personal experience with the developmental services system. We are grateful for the opportunity to partner with you and support your child reach their milestones.

We look forward to working together and supporting your family's journey. Please visit our website for additional information and for the complete packet by clicking here: SARC Early Start
